Thanks YSL, as to your question toasty, I made a hill\mountain and then blended the water texture on it and messed with it a little to make it look good, its more like a river flowing downhill. Here is a pic of the beta version. (NOT COMPLETED!) 3 IMAGES, THEY TAKE A LIL WHILE TO LOAD! <http://www.geocities.com/maytridy/WTRFLLHL L.html?1041022167022>What do you think?
