How's it going?Oh, the thievery on AllGusto's part, yeah, I know all about that. I'm sure he still has
the l10.gmax on his computer. But the fact remains, he's a thief, I am not. You have no proof
except talk. I have proof and have shown it numerous times.But then again, I'm sure Westwood
gave l10.max to me because I was going to steal it. That and the other unfinished maps and the
other models I requested... But beyond that, if he's such an excellent map maker... Where's the
proof of it? What he's done so far is either steal, lie, or copy someone else's design. That's not
excellent, that's lame.Anyways, I'll probably end up doing more variants of the crystals and
sponges, with differing types of Tiberium formations... Probably end up releasing them in another
package.There's a saying that goes "Innocent until Proven Guilty", which makes Andre Innocent.
And besides can you bear us with proof that westwood sent you Level 10 in Gmax format ? And
also don't you think it's a coincidence that Abjab distributed his level 10 in Gmax format the same
time as you created that "Oh My" post with the buildings with exactly the same as Abjab's Lvl10
only textured. Ack you cannot prove that you are innocent nor that Andre is a thief.
