the only drop script I'd use is for the recon bike only. Since it should have been added in the first place =O. I don't make it that Nod gets to be Gods in the game and totally unfair advantage over GDI. But, I need a script that allows it that it drops a recon bike after every drop off, and it doesn't totally **** up the game (vehicles don't move unless I see them, some maps the harvester is never built, making it the Recon bike is the only vehicle you can get!)Recon Bike Goodness =] [December 21, 2002, 19:26: Message edited by: generalfox]
