quote:Originally posted by Brian Hayes:I've just updated the WOL servers so only standard maps/mods can be hosted on WOL. Our support department was just getting too many calls about the crash, so we're gonna have this in-place until we can get a fix for the Renegade client pushed live.If you want to play custom maps or mods you can still play on GameSpy. For now though hosting those customs maps and mods on WOL will fail.Sorry for the inconvenience.Brian
