***** NETWORK

STATUS:HARDWARE TROUBLE11/23/02 - We are experiencing a similar hardware failure as yesterday. The database used to register/log in players for Westwood Online is not operating correctly. This results in players receiving an error upon connecting to thier WOL-enabled game.We're currently working on the problem, and will update you with an estimated repair time as soon as we have one. We will keep you advised of any further developments, and apologize for this inconvenience. (Reminder: Renegade players may still use GameSpy to play Renegade Online!)
