Wow what a great response from the renegade community. Any way here is a very quick one I made. Just download the Goto http://dante.havocide.com/modX/ --> Mods -->gdi_apc_start.zip (299.2 Kb) for the Orc gdi apcwarcraft2ren v.1.zip (1.88Mb) for the restI recommend just to download the gdi_apc_start one because it is the funniest. After downloading the file, extract it, copy the wav file(s) to c:\westwood\renegade\data or where ever you installed renegade.
