Just wondering why i've heard adsolutely NOTHING about this mod.Either way, what was it meant to do/be?Z:SP was a mod based on Halo, a bit into the future of it. It was semi-popular but never got enough help to really get off the ground. It is a fairly old idea, acutally dated back to before the mod tools if i remeber right. We did attempt to revive the project some months ago and almost had enough people.
