quote:Originally posted by aircraftkiller2001:Dazzles don't show up on vehicles. Look at any Renegade tank in W3D Viewer. They all have dazzles, yet you don't see them in-game. The only reason the helicopter ones show up is because they're animated. Actually they do. But the dazzles that are assigned to the ones in the game do not function. The helicopter dazzles work because only 4 of the 8 dazzles are functioning. Which means WS turned off the functioning of the dazzles on the current vehicles. But one can still put a dazzle on it to simulate a headlight/tail-light.
