What Items, strange or cool have you created in gmax? For a map or just for fun, what did you make? I found myself making dozens of different ladders and sewer type pipes to put them in. I made several different Tiberian crystal models. I actually made the James Bond BMW, but I don't know how to make vehicles so it's just decoration. (the reason I made this thread is so people can show their goodies, and maybe trade them with others for map making)
