I'm currently working on a series of maps which start with DM. DMCenter was the beginning. I figure I might as well take the Westwood legacy on and design maps based on the original DMCenter design. The new one is called DMPower. It features the GDI Advanced Power Plant I designed from the original Power Plant. The map is highly detailed and also includes tunnels I added to it along with a cave that a tiberium meteor slammed into.

Also, C&C Beach will be up on www.cncden.com today sometime, I believe. I've been working on it off and on for almost two and a half months.
