I've never seen any of yours out there.1. All I did was repost the same idiotic crap you posted in my thread located at "messagebrd.westwood.ea.com/cgi-bin/boards/ren/english/ultimatebb.cgi?ubb=get_to_pic;f=5;t=024773". I posted something about a simpsons menu theme I was working on, and you came in flaming away talking about how I talk about upcoming maps and never do them...uhhh I dont make ANY maps, and I dont talk about doing them either. Any/All projects that I do however, I complete ontime and with updates.2. So I think it is you who didn't have his story straight initially 3. You are a spamming ass. No its not because you don't like Ack, it's because of your behavior.
