Renegade (Likely 90\% sure).I have a proof (To tell truth, everyone has): Just open the Renegade Manual on page 12 and take a look at the picture that shows the Options Menu.Guess what? One of the options is "Cheats" I don't see it. In my manual the options menu is just how it is in the game. no sign of this "cheats" option.i see it too, i think that it was in the first version of the demo too , right?because i've seen that button before...
