lol, my DaeMoNiC mod already has the A10 with napalm and tank buster bombs. Also my Nod Jet has chem bombs and tank busters =]Editing weapons is easy, under munitions go to weapons and u can edit anyone by clicking on it and pressing the "mod" button. I fu want to edit damage and rate of fireu need to look in the ammo section under munitions. If u want to edit explosions look in the explosions are. I highly suggest that u make new weapons/explosions/ammo for ur mod because that way u have the original data as a template.
