quote:Originally posted by kaibigan31:Your risk not mine. He took serial keys from us. Question is what will he take from you if you let your guard down? Passwords to your chat software? Email passwords? Or access to your entire system so he can fubar it and make it a \$2,000 paperweight? But your choice if you want to risk it.KaiLOL, He'll have a problem with that if he tries!!! I have a Firewall that Remodulates the external IP every 5 minutes!
