quote:are you guys gonna flame buzzer every time he releases a mod? I mean if you're so afraid of getting your cd key stolen by his mods, then just don't dl them. simple as that and all you have to do is leave him alone.Oh no. He committed the crime so he needs to pay the time. Since he wont get prosecuted yet I have made it my personal endeavor to remind everyone of who buzz is and what he did. Just so none of you will slip up and give him the chance to take something again.Kai
