yea...it seems all the crappy mods get alot of replies...i mean i don't mean to insult but come on...everyone KNOWS the star wars mod will et shut down...so its kinda pointless to help them unless they plan on changing stuff...but anyway...i really find it hard to believe no one wants to help...this mod WILL shut down if no one helps because our people right now won't be able to complete this mod...so unless u guys want to ruin a very good mod...i hope u will help =O\..i really wanna make this mod
