---

Ive been messing around with cameras.ini for about 2 hours now and cant get this right. Im using the gunboat model and Ive set the physics so its like a watercraft, The only problem is though when I enter the vehicle , the view appears inside and is screwed up. At first I thought it need to be reboned which I started. Then SK informed me that I needed to edit the Cameras.ini file. Which I have and I got it to work but my problem is I have to enter the vehciel in 3rd person view and when im outside of a vehicle my view is GTA like.

<http://www.n00bstories.com/image.fetch.php?id=1384420830>

Ive edited this file everywhich way and now im stumped... Any Idea's?
