its started with thisAircraftkillerThat interior looks like crap. Show this shit with a texture on it, I don't like staring at it for five minutes and still not be able to figure out what goes where and how it all fits together.

and now i hope it will end finaly all come down if u dont like some thing tell what to fix or just ignore if u dont like some one just ignore each other and back to topick oh where was we ah the conyard i think i done with it, animation done,interior donno need to ask Dan
