spotelmo i'm resisting calling you a moron, but please believe the sentiment is there. it is not ok to attack public or private property. where do you think the city gets the money to repair things? peaceful protests are fine, when they start destroying property of any kind, they should be prostituted to the fullest extent of whatever prostitutes get extended by.

I'm sorry, but I would much rather they go to jail, and not work the streets. I've seen some of the protesters...and you wouldn't want them "Prostituted".

LOL
