And for all that AK supposedly starts all the flame wars this instance was clearly started by Kirby, I would not hav though that you would have shown such a lack of maturity.

Anyway, I agree with SirPhoenixx on the issue of wear and tear aswell as thew lack of sides to the cylinder. The thing that bothers me the most though are the buttons/dials below the scope: very blurry and too obviously 2-D to look good. Other than that it's a great model, I commend the artists.
