I don't think he's overreacting.

The bastards first desecrate Deeze Studios, a mod team known for it's excellent modifications of the C&C RTS games. How? Deezer Studios, a dumb name designed to make people say "OGM ITZ SIMILAR 2 DEEZIRE SO IT KUTS BEE GUD!!11"

Second, they go ahead and blatantly RIP OFF the Westwood logos, simply to make their mod seem like it's of Westwood quality. It was fine when they used the Tiberian Sun motto to promote, because they are showing what game they are altering. But when they take the logo of the same company that created the game for them, that's where I draw the line. Not only is are they creating an ass of themselves, they are tainting the very name of Westwood Studios.

Steppo has a right to be this angry. He's followed the C&C community since the original C&C, not to mention held Westwood Studios in such high regard. If I were in his shoes, I would be very pissed off as well.
