SEALSteppo seems like he is foaming at the mouth in a fit of rage and nerdish passion. WS was great, but it's just a dead company. I can't stand it when people say "rest in peace" to WS as if it were a human being.

Get your priorities straight. To love WS so much like that is not normal... Try focusing the majority of your love and affection on other human beings. Ya know...human contact and interaction?

Buddy, anytime you want to make a valid argument, I'm all ears.

Try bringing it to faces. I'm sure you have a favorite band. Now picture someone blatantly ripping off that band's name, and trying to ride it into fame. Now put yourself in a position where you have an opportunity to tell the leader of this rip-off band to go and shove his microphone up his ass. Would you do it? Of course you would. Same concept here.

Beyond that, your post is nothing but trying to insult me personally for being a fan of Westwood Studios and video games in general. If that's what you're attempting, then I recommend you stay in the Reborn Forums with the rest of the diluted tardkarts.
