Try later

Btw, "snow storm" is going great, the only problem i have so far is that when you are in the dam... facing the obi/pp i get a big FPS drop. (from 35 to 6!)

It's not the snow... but i think it has something to do with the textures of the obi. But i can't be sure.

More info about that map coming soon. (it will be better than this map)
