Where can i get this aimbot?

i got the aimbot from WSE ([www.westwoodexposed.org](http://www.westwoodexposed.org)) that says enough. Snipefrag, regardless of the fact you use aimbot or not, You're pretty much banned from my server. To even make a website about an aimbot is a violation of trust, you use it or not? I don't know, I don't care either I just lost all trust in you, you don't deserve Renegade, and being I can't take that from you I'm taking one server off your list. Crimson, I have to hand it to you, if I were you this guy would be banned the second I read his first sentence.
