spoonyratDanSolobut if anyone challenges your to a 1v1 with ped nuke on, you shouldnt be in the server still....

^^

Standard settings for 1v1 or clan games: start with no money, ped nuke off. Other stuff is negotiable.

In 1v1, I suppose I can understand that... but in clan games!? I can't say that one makes any sense to me. But now I can 100% guarantee I will NEVER participate in a clan game (though even with ped nuke on the chances were slim to nil anyway.)
