jester718HOW ABOUT THIS, SOMEONE SHUTS THIS TOPIC, AND WHEN BOTH MODS ARE COMPLETELEY FINISHED WE SEE WICH IS BETTER,

and ack, plz dont post and say sumthing like "well, the mods technichaly wont ever be done if we choose to continue them..." cause that, ... is just bull \*\*\*\*

oh yeah, i forgot to ask, why do you keep flaming the reborn community, what the fuck id we ever do to you? - seriously

Jester718, Do you know what BETA means? It means PRERELEASE, UNFINISHED. When you do PUBLIC BETAS, OF COURSE IT MATTERS... ITS IS TESTED BY THE PUBLIC, OF COURSE THE PUBLIC WILL JUDGE IT. If you aren't ready, then just do INTERNAL betas rather than releasing a 'bug-free' public halfassed release.

You can't just keep releasing crappy betas and expect everyone to think "Oh one day when Fairy of Dawn releases a decent Final version, the game will rock..." because if you do, they might be waiting their entire lifetime for something non-existance to be released.

There should have been at least ONE map finished recently, look at the RenAlert mod - they have been pumping out maps.
