And spreegem, the mind behind Centurion is a part of the story line, so I won't be revealing that until the appropriate time.

I do appreciate everyone who reads, and thier feedback.

majikent has asked for, and received permission to use the work on his site, and it really is a better layout than these forums are. This story is intended to be a gift back to this community and fans of C&C, so I continue to post it here despite my feelings of late in regards to rampant mindless flaming of community mods.

I encourage exnyte.com's use, and the forums are brand new, and clean. No flames. (Yet) He even has a place where you can vote on the story.
