CrimsonOh for fuck's sake. You're a bunch of whiny-ass children. And all this time I thought A-C-K was just a quick way to type his name and I thought it would be convenient. Apparently I was mistaken. So, the whiny babies get their way.

Then again, your whining about this actually proves his point that you just say it to piss him off. But whatever.

Should have though about that before you went and started a gaming community.
