I'm not entirely sure what you mean.

Are you actually saying you would prefer Martial Law instead of the very limited increase powers we've given the Government?

Are you insane?

Martial Law gives Government the right to use and abuse anybody or anything by any means possible. You're talking about giving the Politicians the right to round up everyone who doesn't agree with them and send them to concentration camps if that's what they wanted. You're talking about turning the United States of America into fucking Nazi Germany.

I'm sorry, no.
