z310hmmm, you take that from them Crimson?

Isn't that the sorta attitude towards you Xp had, and that's why you banned him?

They aren't trying to insult Crimson. I don't think you understand how pissed off Black-Cell members were when their scripts were released to the public.

Xp should be banned from all servers, clans, and communities. He's already proven enough times that he's a backstabber.

Crimson did what was right by giving him a second chance here.
