Slavik has agreed to do the hosting, though some mirror servers would be nice.

All I have to do is register the domain. However, I don't have a credit card or \$100 spare bucks to have a Good-as-Gold account. Because of that, I'll get a cjb.net domain temporarily until I can get a real domain.

I'm going to get on on IRC right now to sort the details with Slav. If anyone wants to join in they're welcome. I'll be in #n00bstories.
