So we then what is your problem?? what are you bitching about?

Lets go back before we invaded. We know nothing about what is happening now.

Many countries say Saddam has wmd, no evidence point opposite. Saddam is evil. We can liberate Iraqi people.

What do you do? You have 3 reasons to go to war. 2 endanger you and the people you were hired to protect. The other is a good deed that will benefit millions of people.

There is no way to not justify Iraq.

And where are you getting this repercussion shit from.

Liberating the Iraqi people is a reason to go to war. Same with freeing the French, Chinese, Austrians, Polish, Russians, Korean, Vietnamese and countless other countries taken over by Hitler.

They were not just a bi-product. They were a reason to go to war.
