theplagueYour a ignerent phycopath with no life, who constantly makes fun and accuses people. You probably never looked youself in a mirror, because your ugliness would shorly shatter it into a million peaces...

I don't have "a ignerent phycopath with no life". And I have no fucking idea what "probably", "youself", "shorly" and "peaces" are supposed to be.

You can post like that after you get a brain and a life.

You are the official winner of the "Fucktard of the year" award.
