spoonyratWhy is C0nfuz0r asking here for cheat information? Why don't you just ask Joe and Boom? I'm sure they have far more in-depth knowledge for you.
lol

And for the cheat, It's called kamikaze.. I've seen it surfacing alot lately. I actually got one kid to send it to me on MSN. If you wanna test someone for it, here's what it does.

1. Left click with repairgun repairs instantly.
 2. Right click with repair gun kills you instantly.
 - 3.Left click with pistol kills you instantly.
 - 4.Right click with pisotl shoots this weird bazooka thing that also kills you instantly.
 - 5.Every weapon but pistol has scopes on them when right clicked.
