And you're going to whine about him not giving away stuff?

Funny coming from the guy who says "all this community does is blame people blah blah" you end up blaming him and starting public threads you know will cause bashing sessions.

If I were SK, I wouldn't release the code to anyone. Just leave it sit there on his computer to spite all of us since you seem to think that you have some kind of divine right to everything made in this community. "He made it so that means I have to get it too! AND IF HE DOESNT GIVE IT TO ME IT MEANS HES A BAD BAD MAN AND ILL CALL HIM THAT CUZ ITS MEAN TO NOT GIVE ME WHAT I WANT"

Yeah, it does seem like people missed kindergarten. And a few other grades.
