First 20 players.

<http://www.renevo.com/?section=services&servid=2&start=21>

start= the number rank you want the listing to start at, then the next 20 players after that number are also listed.

or

<http://www.renevo.com/?section=services&servid=2&pname=55>

pname= rank number you wish to look up. It will return the wolstats page for that player.
