Quote:i bet i can shoot better than u with my .357 or my .308.

Can I take you up on that?

My weapon of choice would be the LeEnfield no.5 .303, converted to a .22. Equipped with a knife sight (so no scope). The target would be approx. 20 meters away, target area is about 3 inches across, meaning the bullseye is approx. the width of the bullet. Firing from the prone position.

90% accuracy, you?

So you go hunting and paintballing.. too bad you didnt make time for an education.
