Subject: Is anyone going to try and run XP SP-2 with the FDS?
Posted by zunnie on Fri, 13 Aug 2004 14:08:01 GMT

As far as i am aware, the SP2 is an assembly of all past 'updates' that have been put into a single SP* pack to make it easier for people to install a fresh copy of XP.
If they didnt do this you would have to redownload all the patches seperately in order to update the system.
