CrimsonCP1 will not have any balance changes. However, Aircraftkiller or someone else willing, we will be releasing duplicate maps like C&C_BHS_Walls.mix with balance changes that server owners may optionally host and players may optionally play. We will not "force" nor appear to "force" anyone to play the game differently if they don't want to.

What type of changes? What would be the purpose of a "BHS" version of a map?
