If you need some help setting up BRenBot (basically any version) i suggest you read this:

<http://www.mp-gaming.net/index.php?act=brenguide>

When running BRenBot 1.41 you also need to configure your ssaow.ini

you can find pretty detailed reference, custom map vehicle crate coordinates etc over here:

<http://www.multiplayerforums.net/index.php?showtopic=694>
