Subject: Question.
Posted by JPNOD on Mon, 16 Aug 2004 13:56:00 GMT

K, I downloaded BR.bot and i think i installed it properly, But renguard is in it and it keeps kicking people. Im running it on euro so my server will be empty 99% of the times just becuz those newbies/cheaters dont have it.

How do i turn it off?, ore do i remove a file

Thanks in advance.
