cowmisfitDon't tell me what to do you nub, i don't have to listen to you , im not your bitch and your not my master.

Alright, cocksucker, lets dance.

First, as you seem to have a poor grasp of the English language, here's a quick fix to your statement:

cowmisfitDon't tell me what to do, you nub; I don't have to listen to you. I'm not your bitch and you're not my master.

Now, by "nub" I assume you mean "noob" and are just an idiot. And while I'm not your master, you just made yourself my bitch.

You came into an argument that was already underway, you spouted some stupid drivel and then seem surprised when you're told to go fuck off? First, you didn't even bother to read anything that was written by other people, or you would have known that we've already established that:

- a. It was illegal, and
- b. Just cause Saddam was bad, that doesn't make it right.

Now, perhaps the trouble here again lies with your (obviously) poor grasp of the english language; due, no doubt, to the fact you didn't pay attention in school because your anus was so sore from your father fucking you at night.

Be that as it may, I'm moving on to what I will generously call your "next point."

cowmisfitYour a jackass for even comparing 9/11 to a drug dealer or murder in prision, just a plain jackass.

Interesting. What would you call killing a bunch of people? Cause I would call it "mass murder." Or is it your opinion that the rules can change based on how "big" of an offense it is?

If a person only kills 10 people, the police have to capture him, but if he kills 20, can they then bomb his house? Can I?

Apparently, bitch, you fail to grasp a simple, yet potent, analogy. Welcome to the world of being an adult. Just cause you want something to happen does not make doing it legal.

Now, as I know you probably either didn't read or didn't understand what I wrote, the obligatory flame:

You're a little piece of shit. You're an idiot, and worse than that, you're an idiot who thinks we care about what you think.

Guess what, we don't.

In fact, we only respond to you in the hopes that you will recognize your idiocy for what it is and decide to kill yourself in an inventive way (I suggest wrapping piano wire in a sliding noose around your neck, tying it to a chimney, and jumping off a roof; hanging, and perhaps even decapitating, yourself) so that we can gain some amusement from your otherwise pointless and annoying existence.

However, as the odds for that are slim, I will at least gain some small measure of satisfaction from knowing that not only do you have to continue your sad and meaningless life, but you also cry yourself to sleep at night, trying not to hurt your bruised and bleeding anus anymore than it already is after being ravaged by whoever decided to recently make you his bitch.

Fuck you, die.
