bigejoe14 Good news everyone! I've found the developers homepage and support site!

lol.. straight from their "services" page..

Quote: Software Design and engineering

*From scratch development of video games

*Development of portion of the game

Issue resolved! They must have only been contracted to develop a portion of this game!

And how on earth could anyone compete with this guarantee?

Quote: We always try to keep fee as low as possible, virtually guarantee to our customers that they'll won't found term that will be more suitable for them.
