Yeah i know 60-80 FPS is very good, you would barly notice a difference with that kinda FPS to 120 FPS. 60-80 is very smooth. You do make a good point about that. But i never intended to say my PC owns, i think i kinda said that cuz it was like 5am in the morning prolly couldnt think straight. So sorry about all those arguements, Im feeling fresh now, and kinda feel stupid for saying all that crap.
