Well uh, if it would please the community, I'd throw my hat into the ring too. I doubt I'd get elected but... I dunno I think I might do alright... Don't hate anybody here. Been around for a long time. I'm fairly well versed in atleast general modding. (A little bit of everything so to speak) Anyhow if nobody wants me in oh well, lol, but I figure I'd try. I am not even sure if nominations are over but I don't recall seeing this 24 hours ago. Ahh well, yep...
