Wow, the "we need someone to mod the flamewars" thread has turned into another war :S

Seems like this thread jsut popped out of no where, but i actually got a few votes O_o

I wouldn't mind doing the job, but if being a part of RenAlert disqualifies me, then that's understandable. (Although I am a mod for jsut about everything else Crimson owns)

I don't have a clue who to nominate....90% of the people that do visit here often contribute to the spam/flaming. I'll leave it at that, this will probly be locked within a couple hours anyway...

Slash0xSilent KaneWho: DaRenx

Why: He wouldn't abuse it like the other recommended people. And he would do great work there. He also does a great job for similar things. No other person who belongs to a mod team (besides DaRenX) should be used since I already can see posts even whole topics getting deleted due to the biased opinion there.

DaRenX, why? Because I feel sympathy for him when I own him at sniping. Just kidding, what SK said.

Pfft, you wish It was more of a back and forth thing...I kill you then you kill me
