Heh.. Well, as cowmisfit can see, I'm not a guy. Oh, and I was going to mention this before in my opening thread before it was hijacked by .. uh.. not so nice people. If anyone plays, UT2004 you can find me there regularly under the same name. I'm always looking for a good team of players on Ren or UT.

Before anyone mentions this, I know this isn't the place to announce that, but oh well.
