Life in plastic is fantastic...

You're a barbie girl in a barbie world !!!

In your world of plastic, life is magic

:rolleyes:

remember this song ?

AircraftkillerHas a plastic look to it, very little metallic properties. The grip in the front is distorted and reeks of a quick bevel in Photoshop. It also looks like it would fire dildos instead of small caliber bullets.

For the rest :

- we wanted the grip like that. It's not distorted. That's how the model is.
- Am I not allowed to use photoshop ? Mspaint is a bit hard for skins. ( = textures )
- Good point about dildos, I don't know what is it but I understand that the hole in the barrel is too big. I will reduce it.

Thank you.
