I know the Lynne story. I was there when the whole thing unfolded. I didn't take it as a slam against GunVixen, but more like a "re-open old wounds" kinda thing. Anyway, I don't want to get into it since it wasn't anything that was personal to me. But I'd just leave the subject matter alone if I were you and let the people who were personally involved work it out themselves if they want to.
