SHOKAgentCan't have metal without the metal hair. (still growing it)

Also, it's interesting to see so many bass players on the forums. I play bass myself.

Yeah, that's sweet. I was going to go all-out with the hair, but the girlfriend likes it how it is now.

AircraftkillerOh, and the ".." doesn't help much either. Only a few people do that 66% elipsis, TankClash, msgtpain, Lynne, and a few others.

I also do the ".." myself, though usually on AIM and other on-line forms of instant messaging rather than forums.
